

May Days

May Days has beginnings in the very sad loss of a special friend to our family, May Kemp. The idea started when we sent May to the Langham for a special

weekend with her family after she was diagnosed with cancer. She created such wonderful memories that it set me thinking, how fabulous for every town to have May Days.

In honour of May we offer a complimentary night in our boutique, seaside accommodation for any of those in need of a May Day. Working with local charities and businesses, including Hospice, we find individuals, couples or families in our community who need a break and the response has been humbling. I love the addition of May Days to our lives. It is such an easy gift for people in any industry, especially the accommodation industry, to give. Even just one night of TLC can make such a difference.

May Days are for anyone who needs a break; hospice residents wanting to make memories, those grieving lost loved ones or locals that have struck a hard patch. A teenager emailed me to say her Dad just needed a break, a night to himself, he dedicated himself to work and his kids and as a single father never had a minute to himself. May Days don't have to be big stuff, it is about contributing to our local community in their hour of need. Whatever the reason, we are honoured to share our beautiful seaside experience.

Ness

at a glance

Created for local residents in need of a break. As long as we have availability we offer a complimentary night in our boutique, seaside accommodation at Driftwood Seaside Escapes for any and all of those in need of a May Day.

how can I help?

Would you like to contribute? We would love to hear from you.

Perhaps you would like to drop in a bunch of flowers, contribute a voucher or discount, offer a massage or a box of chocolates for a goodie bag. May Days is about community spirit and we would be honoured to have you involved.
